

Belmont Preparatory School Health & Safety Policy

Part 1 General Statement of Health & Safety Policy

- 1.1 As governors of Belmont Preparatory School we fully recognise our collective responsibility for providing, so far as is reasonably practicable, a safe and healthy school for all of our employees, pupils, contractors, visitors (including parents) and others who could be affected by our activities. In our role as employer we attach high priority to ensuring that all the operations within the School environment, both educational and support, are delivered in an appropriate manner. The governors are committed to promoting the welfare of all in our community so that effective learning can take place in a safe environment.
- 1.2 We fulfil our responsibility as governors of Belmont Preparatory School by appointing, the Chair of our Estates, Health & Safety Committee to oversee Health & Safety as part of their general responsibilities to include the upkeep and maintenance of the fabric of the estate and buildings.
- 1.3 Day-to-day responsibility for the operation of Health & Safety at the School is vested with the Head. However, as Governors, we have specified that that the School should adopt the following framework for managing Health & Safety:
 - The Estates, Health & Safety Committee will meet termly and include Health & Safety as an agenda item and receives copies of all relevant paperwork.
 - A report on Health & Safety covering: statistics on accidents to pupils, staff and visitors, staff training, and all new or revised policies and procedures will be tabled at each term's Estates, Health & Safety Committee meeting.
 - The minutes of the Committee's discussion on Health & Safety will be provided at each meeting of the full Board together with any other issues on Health & Safety that the committee Chair wishes to bring to the Board's attention.
 - The external fabric of the School will be monitored for significant defects on a regular basis and its plant, equipment and systems of work surveyed and inspected regularly by competent professionals.
 - These reports (as per above) are considered by the Estates, Health & Safety Committee and its recommendations (together with other defects) form the basis of the School's routine maintenance programmes.
 - The School's adherence to Health & Safety in catering and cleaning of the food preparation and eating areas is subject to external inspection by the Environmental Health Officer (EHO). In addition, the Bursar will have access to an independent specialist to review the hygiene and safety audit of food storage, meal preparation and food serving areas, and the Bursar will report on these aspects to the Estates, Health and Safety Committee.
 - The School has fire risk assessments, carried out by a competent person, which are reviewed every year and updated every three years, or when significant changes are made to the interior of buildings or buildings are acquired, altered or undergo a change of use. The Chair of the Estates, Health & Safety Committee should review updated risk assessments when they have been completed. The Bursar will monitor and review progress on the action plan contained within the risk assessments and will report to the Estates, Health & Safety Committee. The Bursar will receive relevant training in Fire Risk Assessment and can call on an external consultant to assist with the assessment if they require clarification or further guidance.

- The Bursar and Site Manager will receive sufficient training to enable them to review the overall arrangements for Health & Safety, including fire safety, the general state of the School, and reports on actions required with recommended timescales. In doing so they will have access to external qualified specialists with the approval of the Estates, Health & Safety Committee who will monitor the progress of implementation of any recommendations.
 - The School has a competent person undertake a risk assessment for legionella every two years and will ensure that a testing and monitoring regime is in place in line with the latest HSE guidance.
 - The School has a comprehensive policy in place for the training and induction of new staff in Health & Safety related issues which should include basic 'manual handling' and 'working at height training'. Health & Safety training that is related to an individual member of staff's function will be provided in addition to the 'standard' induction training. First aid training and minibus driver training are provided to any member of the teaching staff who is involved with trips, visits and sporting activities and to selected members of the non-teaching staff.
- 1.4 All members of staff are responsible for taking reasonable care of their own safety, as well as that of pupils, visitors, temporary staff, volunteers and contractors. They are responsible for co-operating with the Head, the Bursar and other members of the Senior Management Team ("SMT") in order to enable the Governors to comply with their Health & Safety duties. Finally, all members of staff are responsible for reporting any significant risks or issues to the Bursar.
- 1.5 All employees are briefed on where copies of this statement can be obtained. They will be advised as and when it is reviewed, added to or modified. Details of the organisation and arrangements for carrying out the policy are to be found in parts two and three of this document.
